While education of children in human growth, development, and sexuality is an essential aspect of God's creation as outlined in Vatican documents and through texts and programs approved by them, it is a parent's right to reserve such education to themselves and their children. ----- School/parish uses the Diocesan approved Human Relation series entitled: -----. Parents may view the texts and materials used by calling the school/parish office. Parents objecting to the school/parish teaching the above topics to their children will be required to fill out this form each year they wish the exemption to apply. The form will be completed by the teacher who will indicate the appropriate alternate learning the student will perform outside of the regular classroom during the time Human Growth and Development is being presented.
